Corona Inspection Training Institute

Ultra Violet - UV - inspection training and applications

Become a UViGrapher an Expert in UV Inspection

UViGraphers are skilled corona-camera users, involved with predictive maintenance tasks, provide meaningful reports, and make competent use of their elaborated costly equipment. Qualified UViGraphers are valuable both to utilities that practice already UV inspection and to companies that consider adopting this technology because of their awareness and alert to hidden fatal signals. The corona inspection institute – CITI – is the only training center that encompasses all corona inspection aspects. Sponsored by Ofil, the manufacturer of DayCor® - the original daytime corona cameras, CITI qualifies UViGraphers and provides them with acknowledged industry certificates.

Curriculum

- ◆ UV technology – theory
- ◆ UV technology – implementation
- ◆ Corona and arcing – the effects that affect
- ◆ How, where and when to do UV inspections
- ◆ Understand what you see
- ◆ Experience the full cycle: inspect, detect, report
- ◆ Integrating UV and other inspection technologies
- ◆ How to use corona cameras
- ◆ Software training – database operations and report generation
- ◆ Final exam

Benefits

- ◆ Learn from the premier UV inspection and application resources
- ◆ Become a qualified certified UV inspectors UViGrapher
- ◆ Get practical and theoretical training on using UV inspection for predictive maintenance including: real data acquisition, interpretation, analysis, report and decision making
- ◆ Make the most of your existing equipment
- ◆ Let go of “trial and error” education and decrease maintenance costs
- ◆ Prepare skilled satisfied personnel
- ◆ Tune up with the latest technological innovations
- ◆ Sponsored by Ofil Ltd., the manufacturer of DayCor® corona cameras developed in partnership with EPRI

Who Should Attend?

- ◆ All levels Inspectors
- ◆ PdM Managers
- ◆ Maintenance Technicians
- ◆ Maintenance Engineers
- ◆ DayCor® or other corona camera owners

Duration, Location, Calendar

- ◆ Two and a half days
- ◆ On-site courses to groups of at least 10 students scheduled to fit
- ◆ Ofil’s classroom – classes of up to 25 students
NEXT: Oct, 2010 - TX, USA

Certificate

Successful course completion provides an official UViGrapher certifications by CITI, acknowledged by Ofil Ltd.

Tuition

A registration fee of \$1,600 USD includes course instruction, course materials, and lunch each day.
